BENETEAU

The beginning of a new story: 8th generation of the most successful cruise range

The Team

Naval architect: Finot-Conq Architectes

With more than 45,000 boats of over 200 models, finot-conq is one of the world leaders in naval architecture for 50 years.

The collaboration with Beneteau began in 1977 with the First 22, which has never been interrupted since, and which has given birth to some of the greatest successes in the yachting industry

A career marked by successes and achievements in both racing and cruising universe

Deck and interior designer: Nauta Design

A close collaboration for 20 years with the Beneteau brand

They see contradictions as a challenge. A yacht has to be an object of extreme beauty, that in years to come, will always give pleasure to the onlooker.

Creating a balanced blend of elegance and ease of handling, style and performance, comfort and seaworthiness, is the distinctive character which fuels their pencil, when hand-in-hand with modern technology, they turn ideas into reality.

To complete this famous team 20 specialists from the shipyard worked closely on the project. Thanks to their inputs combined with a deep work in the Beneteau family (dealers and customers panels) the new generation is precisely define to answer to all the expectations.

Concept & key Points

Built on Legacy, enhanced for today

Elegant silhouette combined with powerful hull easy and pleasant to manage thanks to the twin rudders

Revisited volumes
+ 9% cockpit full of functionalities thanks to the beam: as large at the mid-ship than at the aft cockpit= a spacious area

A modular cockpit
to adapt to the times of day

Dedicated layouts
1 for demanding owners: 3 cabins 2 heads with carefully selected materials and high level of equipments
2 for share or charter use: 4 cabins 4 heads and 5 cabins 3 heads, fitted with specific materials for robustness and easy maintenance

A simplified offer
Higher standard to avoid trim level, new packages to upgrade exterior or interior comfort

Exterior key points

- A **wide cockpit**: as large at the beam than at the aft!

- **Cleaver versatile cockpit tables** with storages: 3 functions
  - lunch (possibility to extend with extra removable extension to join tables)
  - can be lowered for 2 extra sunbaths well protected (Escape Pack)
  - coffee table function

- **Huge farniente area** : more than 3.00 m long on both sides dedicated to sunbathing

- **Easy circulation:** free central passage to move from companionway to aft

- **Nice large consoles:** to welcome up to 12" screens and optional electronic engine throttle

- **Optional Aft Closed cockpit**: aft entirely closed with additional seatings and storage. Can be converted into **outside galley** with an integrated gaz plancha

Interior owner's version: **A premium 3 cabins 2 heads layout**

High quality:

Superior wood treatment thicker wooden edges, solid wood made with alpi, anti-glare ceiling lights in saloon, corian worktop….

A boat that is a joy to live:

- Seating comfort with high quality foam
- Mast library with storage below to bring aboard favorites books for pleasant cruises
- Comfortable sofa with chart table for sailors or used as desk
- First class owner cabin with its huge shower

Sense of well-being

Space, light, ergonomy, privacy

Charter or yacht management use: **2 robust and easy to maintain layouts**

4 cabins 4 heads

5 cabins 3 heads

Benefits for the technical teams:

Strong material for furnitures

Easy maintenance

Benefits for the users:

Spacious full length galley easy to use with several people

USP's summary

- Open or Closed aft cockpit
- Twin rudders for performance et better control
- An upgraded standard: best in class!
- Premium upholstery for owner version
- Laminated wood for charter layout

A simplified offer

Higher standard: this new generation reflects customers needs and expectations.

Removal of the trim level which allows to focus on new thematic packages to upgrade exterior (Escape Pack) or interior (Elegance Pack) comfort

Best in class standard!

New standard includes:

Cockpit shower with mixer
5 AGM service batteries + 1 charger
3.5" Navicolor screen
IBS sensor (3-cabin, 2-head version)
USB ports in the saloon and cabins
Complete 230V electrical system
Direct and indirect LED lighting
HIFI: Fusion RA210 stereo + interior loudspeakers + waterproof loudspeakers
Seanapps connected boat

Specifications (provisional , updates at the boat's certification)

General Specifications

• L.O.A	14,60m 47'11"

CHALLENGE SAILCLOTH

Focus on Palma-Tec cloth (Formerly known as XRP Cruise)

Brand: Challenge Sailcloth
Cloth: Palma-Tec

Ultra PE Enhanced Cruising Laminates

These modern cruise laminates use all inlaid fiber without scrims for highest performance and efficiency. Sandwiched between taffetas, they are soft and strong with tremendous lamination adhesion for excellent durability. Using large and tough black polyester high tenacity fibers in several directions, they both handle off angle loads, and are untearable

100% recycled polyester fiber and recycled film.
Challenge uses a **proprietary adhesive system that contains no PFAS's or solvents to bond all the materials together**

The combination of black fibers between white taffetas produces a light grey color

- Low stretch
- High durability
- Special UV resistant polyester film is used

Closed cockpit packs

Higher welcome capacity that frees central cockpit area

Closed cockpit Pack brings a large aft storage accessible from the platform

2 choices:

- **- P BFCA Storage version**: Additional aft bench with storage + 2 lifting seats: secure cockpit, completely closed

- **- P BFCB Galley version**: instead of extra storage this version adds a gas plancha. Easy to cook from the aft platform

2 access to the aft platform thanks to the lifting seats

Dedicated upholstery as option (BS C2A3R option)

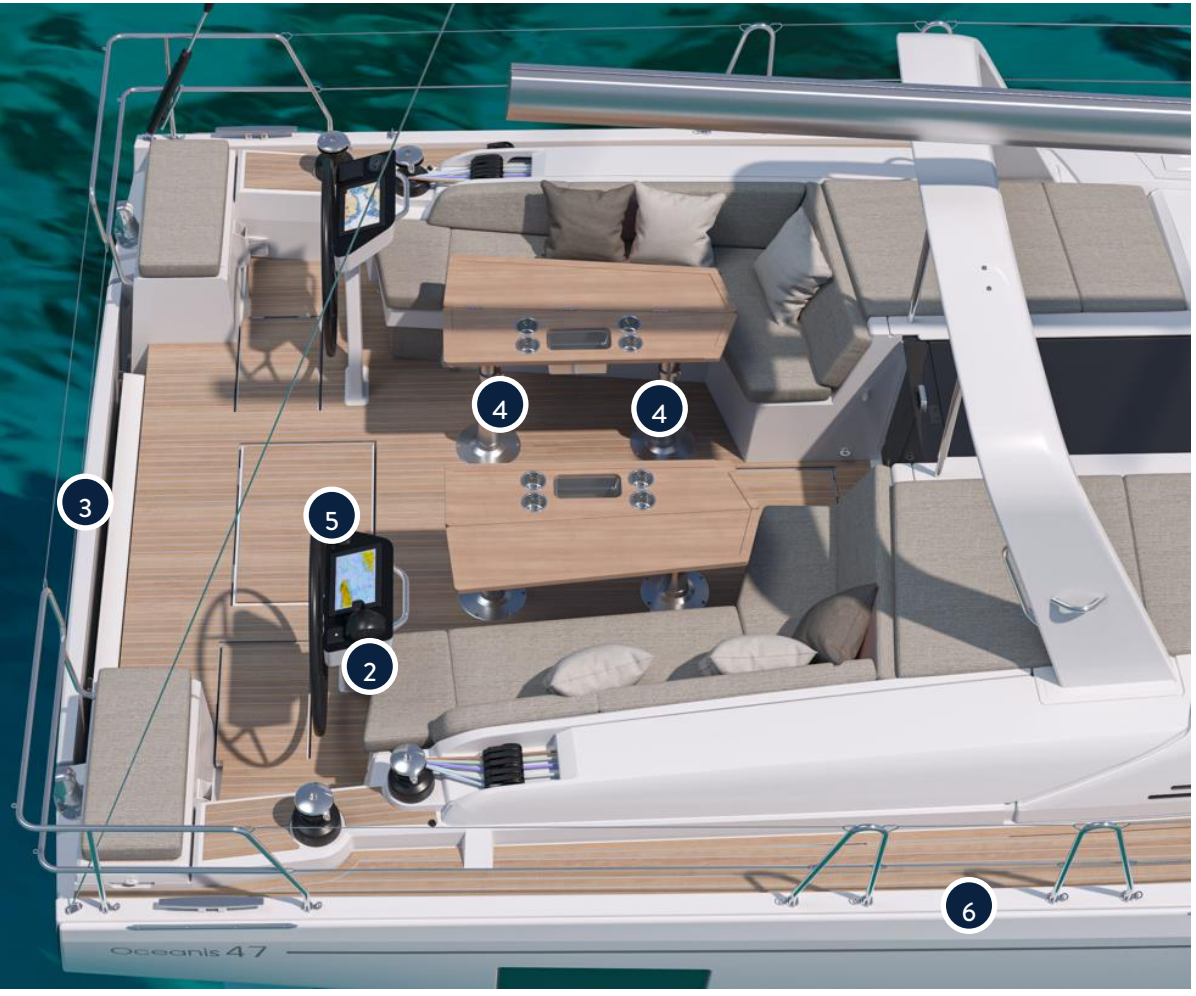

Closed cockpit packs

Adds:
2 lifting seats and a fixe central seat with storage or plancha

Boat with optional BS C0J upholstery for closed cockpit pack and BS C083R upholstery for helm stations

- P ISE Escape pack: exterior equipments upgrade

Dedicated pack with popular equipments

(requires an Electronic Pack)

1. Tunnel bow thruster (Side Power – SE80/185T-12V) with 2 dedicated 50 Ah batteries
2. Electronic engine throttle on the starboard console
3. Electric opening of the swim deck + remote control on starboard console
4. Manual telescopic legs for the 2 cockpit tables. Upholstery for tables is available as option
5. Bow thruster control on the starboard console
   Windlass control with chain counter on starboard console
6. Side gate opening to port and starboard

- P ISE Escape pack: exterior equipments upgrade

Manual telescopic legs for the 2 cockpit tables

BS C2A3R option: Savane Nimbus upholstery for cockpit tables

Bow thruster control on the starboard console
+ windlass control with chain counter

Requires Escape Pack and requires cockpit upholstery option

Solar panels: on the roof or/and on the fixe bimini

The Solara semi flexible (3%) solar panel is specially designed for boating.

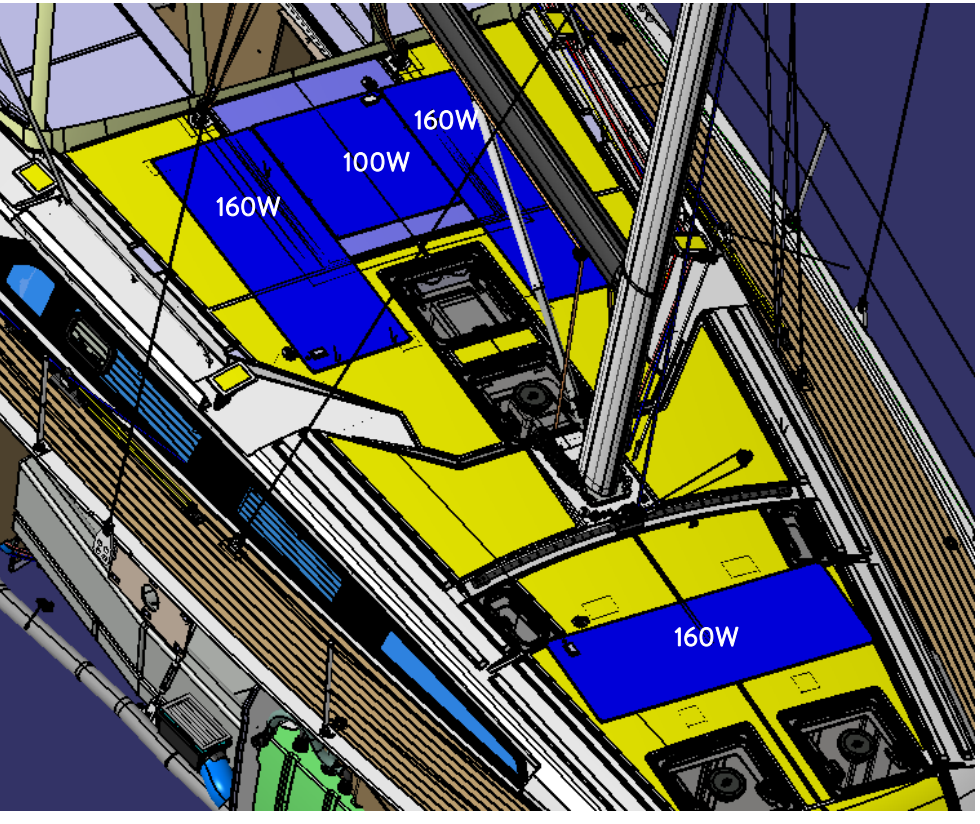

It is resistant to high heat, high humidity, and salty environments, and is walkable.

Extremely high yields thanks to the use of high-performance crystalline cells.

Maximum daily yield thanks to additional individual cells.

Powerful low-light performance - high yield even in cloudy and partially shaded conditions.

FA S04 option: 580W Solar panels on the roof

Brand: SOLARA

Solar panels on the roof:
Power: 3 x 160W + 1 x 100W

Daily output in summer:
- for 130W solar panel = 705 Wh/day
- for 100W solar panel = 400Wh/day

Compatible with optional solar panels on the fixe bimini to increase the autonomy

Solar panels on the fixe bimini under process, more details to come

FA S04 option: 580W Solar panels on the roof

FA S04 option: 580W Solar panels on the roof

Solar panels on the fixe bimini

Under process, more details to come

BA M11 option: Complete mooring kit

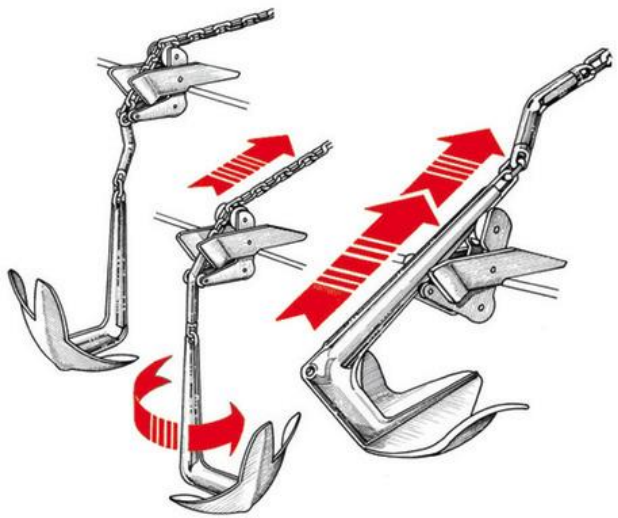

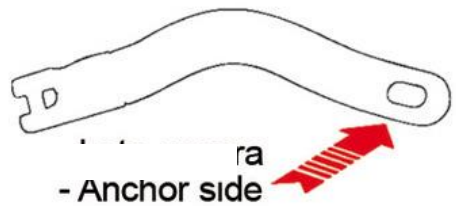

- Delta 20 kg/44 lbs anchor (galvanized steel)
- Chain (Ø 10mm / 3/8” - Length: 32m / 105’) - with Chain grip
- Line (Ø 18mm / 11/16” - Length: 45m / 147’)
- 6 Fenders:

2 L (Ø 250mm / 10” - Length: 700mm / 2’4”)
4 XL (Ø 300mm / 12” - Length: 880mm / 2’11”)

- 4 Moorings lines (Ø 18mm / 11/16” - Length: 15m / 49’)
- Anchor positioner

E-BOOK

BENETEAU

Electronic Pack by Raymarine

2 choices : **9” Axiom2 Pro or 12" Axiom +**

COASTAL PACK

- **1 Starboard steering console**
- **1 Axiom 2 Pro 9” multi-function touchscreen** (GPS, Chart plotter, Chart reader - Navionics®+ Blank cartography included) on the starboard console
- Port side helm station: 1 i70s display on deck
- Windex Windvane
- Wind Sensor (Windvane, Anenometer)
- Sensor (Log, Speedometer, Temperature)
- P70s autopilot control to portside on deck
- Chart table: RAY73 VHF, AIS receiver function
- 2 Steering wheels covers + 1 Starboard console cover (Silver)

OFFSHORE PACK

Includes Coastal Pack and adds:

- **1 Port steering console**
- **1 Axiom 2 Pro 9” multi-function touchscreen**
- S100 Wireless autopilot remote control
- Wiresless charging station for smartphones
- 1 Port side console cover (Silver)

UPGRADE FOR OFFSHORE PACK *(requires Offshore Pack)*

- **2 Axiom + 12"** screens replacing the Axiom 2 Pro 9" screens

Axiom2 Pro Multifunction Display

Raymarine

The powerful Axiom2 Pro Series multifunction navigation displays offer all the simplicity and speed of Raymarine multifunction navigation. Displays are controlled using both a slim and compact touchscreen and physical buttons.
LightHouse 4 OS is fast, fluid, and easy to learn.

- Swipe and navigate – it's easy.
- Built for the future with regular free updates, including new features and improvements.
- Standard Wi-Fi and Bluetooth connectivity allows connection to the latest Raymarine apps for tablets and smartphones.
- Super-bright LED technology – bonded display, readable in bright sun.
- Blazing-fast quad-core processor backed by a powerful graphics processor.
- From its keypad on the side, a long press on the Waypoint / MOB key to activate the Man overboard (MOB) alarm.

INTUITIVE CONTROL

Easy to use Lighthouse 4 operating system with control device HybridTouch offers owners the flexibility of multi-touch interaction and keypad control in extreme weather conditions.

SHARPER

IPS display technology delivers wider viewing angles and sharp contrast at twice the resolution of traditional displays.
Improved viewing with new LightHouse colour themes, including Day and Night mode.

- Fusion RA210 with interior /exterior speakers
- USB ports in the saloon and cabins
- Direct and indirect LED lighting
- Cockpit shower hot/cold water
- Seanapps connected boat

Why a higher standard?

Standard equipment is always valued at the fairest price since it is systematically provided for each hull produced.

= A real price advantage for the customer

This new level of standard is in line with current practice of our customers

A simplified price list: this new standard avoid trim levels

2 new packages with thematic for a clear offer:

Escape Pack = exterior upgrade

Elegance Pack = interior upgrade

2 dedicated offers for Charter or Yacht management use:

4 cabins 4 heads layout

5 cabins 3 heads layout

Charter or yacht management use: **robust and easy to maintain 5 cabins 3 heads and 4 cabins 4 heads layout**

Benefits for the technical teams:

Strong material for furnitures:

Laminated Laos Teak: a resistant surface chosen for intensive use of the boat

The edges are glued with a very strong PU glue: prevent the edges from peeling off

Compact Clay worktop in galley and heads with corian fiddles: designed to stay like new over time

Easy cleaning: laminated floors, PVC hull lining, PVC upholstery

Easy maintenance

Benefits for the users:

All the portside area welcomes a spacious full length galley: plenty of storages, long worktop, easy circulation

4 cabins 4 heads

5 cabins 3 heads

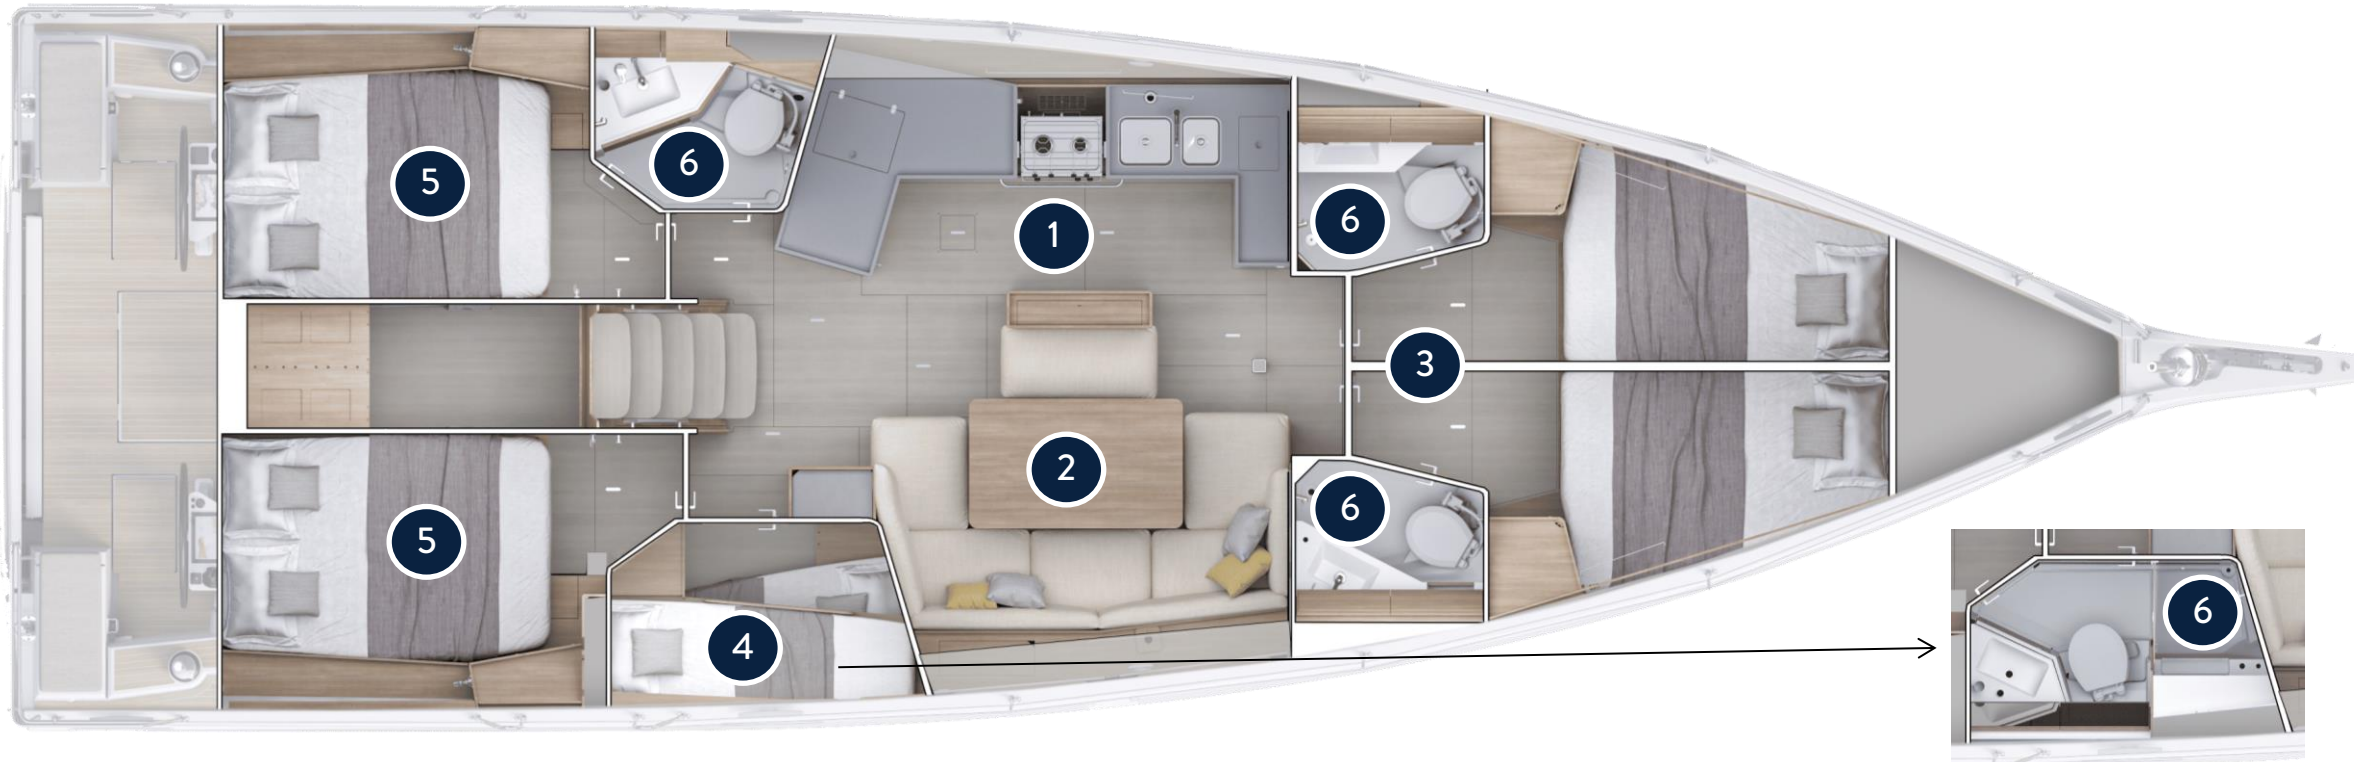

Charter or yacht management use: **robust and easy to maintain 5 cabins 3 heads and 4 cabins 4 heads layout**

To perfect fits to specific use these Charter versions include:

- 2 Cockpit tables: fixed polyester table top with 2 cup holders, central storage
- Bow stainless steel protection
- Aft transom protection
- Double berth in saloon
- Fusion RA210 with interior /exterior speakers
- Cabins + Saloon: White fans
- Extra water tank (195L / 52 US Gal)

Charter or yacht management use: **robust and easy to maintain 5 cabins 3 heads and 4 cabins 4 heads layout**

1. Side galley large work surface, spacious storage, designed for meal preparation with numerous guests. Worktop surface: Compact clay, corian fiddles.
2. Large c-shaped saloon with fixe table and bench with backrest thanks to the central unit : welcome up to 6 people
3. Double forward cabins with forward facing bedheads twinned with a large bunk. Each cabin has its own head!
4. 5 cabins= Side cabin with bunk beds. Perfect for the youngest members of the crew
   4 cabins = Pivoting head compartment
5. 2 aft cabins with forward facing bed heads and large bunk. Portside one with privative access to head compartment
6. Pivoting head, smart et innovating:
   For a better comfort the washbasin rotates to free the shower area

Charter or yacht management use: **Huge galley well fitted with central island for easy circulation**

Work top in Clay compact with Corian fiddles

1. • 2 Rectangular stainless steel sinks - 1 Mixer tap – Large Storage cupboard below with bin
2. • 1 Gas cooker 2 burners - Stainless steel oven on gimbal – Stainless steel protection handrail (3 burners + grill in oven as option)
3. • Cool box 85 L / 22 US Gal top opening
4. • 130 litre refrigerator (12V), front opening
5. 3 High shelves with doors, 2 Open high shelves
   • Location for microwave
6. • 1 Lower cabinet: 3 drawers
7. • 1 Low unit: 1 drawer 1 door
8. Central cabinet with storage locker or optional Tv pre-wiring on electric lifting system
9. • 1 Opening portlight with curtains in the coachroof side window + Mosquito screens
   Sea view with large hull porthole

Charter or yacht management use: **perfect forward cabins**

Forward cabins with private head compartment for a perfect privacy

- Double bed (2m x 1,40m x 0,80m / 6’7” x 4’7” x 2’7”)
- 1 Hanging locker - 2 Closed high shelves, 2 Open cubbyholes, 1 Drawer under the bed
- 1 Adjustable reading light with built-in USB-C socket
- 1 Deck hatch with mosquito screen/blind
- 1 Hull porthole with sliding blind
- 2 USB sockets

Charter or yacht management use: comfortable aft cabins

- Double bed (2,05m x 1,40m / 6’9” x 4’7”) with sideboard access
- Hanging locker - 2 Cupboards - 1 Cubby hole locker
- Adjustable reading light at the head end of the bed with built-in USB-C socket
- Adjustable spotlight on the bulkhead
- 2 USB sockets

Bright and well ventilated:

- 1 Hull porthole with sliding blind
- 1 Cockpit opening window with curtain under cockpit seats + Mosquito screens
- 1 Opening porthole in the cockpit (on the coaming) + Mosquito Screens

Interior
Packs and main options

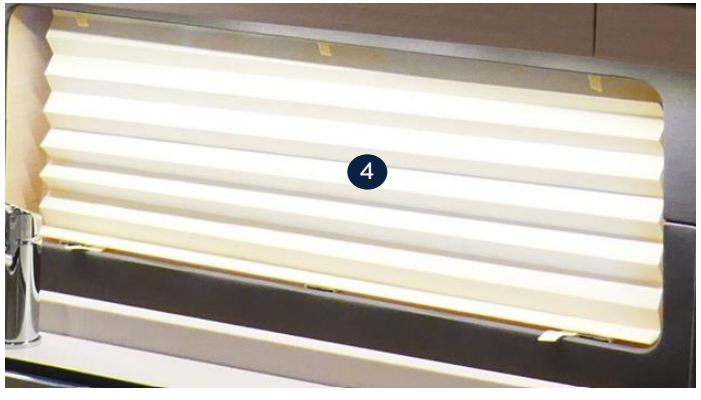

Elegance Pack for 3C2T owner's version

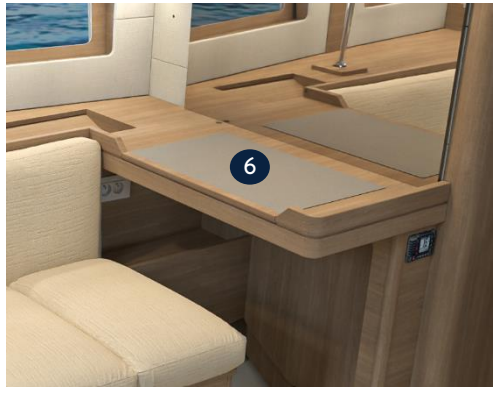

1. Dolce 07 padded frame around forward cabin bed
2. Padded owner's headboard Sunbrella Natté - Natural
3. Saloon table upgrade: solid alpi wood around the edge, central storage
4. Pleated blinds on the 4 saloon portholes
5. Smoked mirror at the back of the saloon bookcase
6. Artesian covering on forward cabin bedside tables, on the central shelving of the bookcase, on the cupboard at the bottom of the companionway, and on the top of the chart table

Elegance Pack for 3C2T owner's version

Optional domestic appliances: 20L microwave oven

1 Location for microwave oven option

Brand: WHIRLPOOL
Model: Jet Defrost - MWP201W

Power: 700W
Capacity (L): 20
Automatic recipes: Auto Cook - Jet Start for rapid heating - Dough rising - Keep warm (60°)

Optional domestic appliances: Stainless steel cooker 3 burner oven/grill on gimbal

Brand: ENO
Model: Grand Large
Replaces standard 2 burners oven (model without grill)

Burner power: 1000 W, 1750 W, and 2500 W
Oven power: 1800 W
Grill power: 1350 W
Gas consumption: 418 g/h
Safety thermocouple
Oven volume: 19 L
Ignition: Electronic
Materials: Stainless steel exterior and stainless steel oven

Supplied with 2 pairs of pot holders + 1 lid
This lid is made from high-density tempered glass, with excellent resistance to thermal and mechanical shock

Optional domestic appliances: Water purifier with UV filter

Brand: WATERSPRING
Model: Nautic II
Connected to the cold water inlet in the galley: safe water in a sustainable way

What is UVC light?

Ultraviolet light is a type of electromagnetic radiation transmitted in waves or particles at different wavelengths and frequencies. UVC light, also known as short wave ultraviolet light (200-280 nm), differs from UVA (long wave) and UVB (medium wave).
In the water purification process, UVC light is used to inactivate the DNA and RNA of bacteria, viruses and other pathogens. This inhibits the ability to multiply, thus rendering the pathogens harmless.

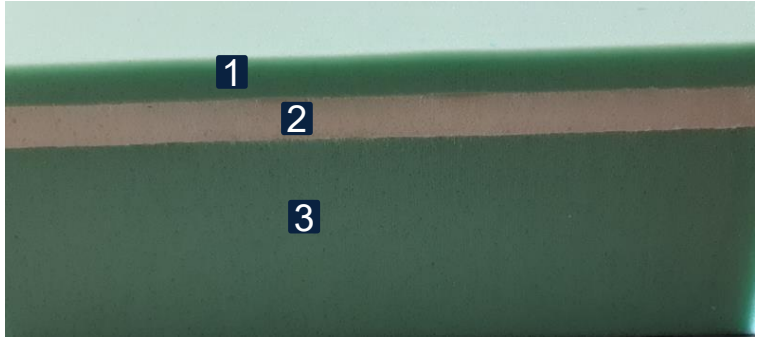

UVC LED compared with conventional water purification methods

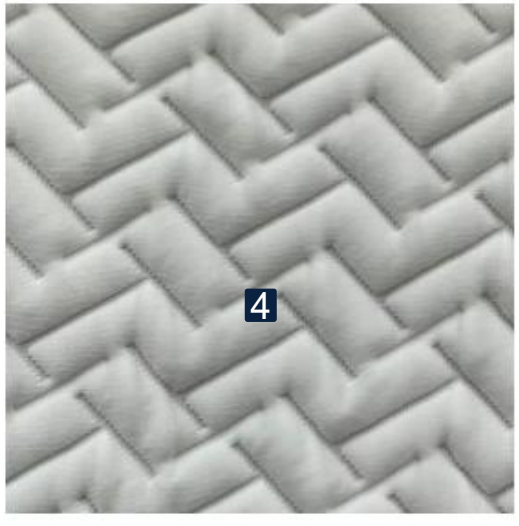

UVC LED is the most sustainable way of disinfecting viruses and bacteria from water. High flow rates used to be a limitation, but thanks to rapid technical advances in LEDs and smart system design from companies such as Watersprint, LED-based systems are now a competitive alternative in applications previously dominated by conventional UV lamps.

Comparative advantages of UVC LED over conventional UV lamps:

Energy-efficiency: Lower energy consumption.
Eco-friendly: No harmful chemicals such as mercury.
Rapid response: Immediate on/off function with no warm-up time.
Long service life: Lasts longer and requires less maintenance.

Optional Premium mattress for owner and aft cabins

Eco-responsibility: recycled PU foam is a new-generation foam made from recycled polyol (20%), obtained from the recycling of used PU foam.
The ticking contains up to 75% recycled material.
The use of these materials reduces the mattress's carbon footprint.

Thickness: 17 cm foam
Foam composition:

1 Support: 2 cm thick. Recycled PU foam - density 35 kg - comfort 3.1 kPa
2 Intermediate: 2 cm thick. Viscoelastic foam - density 52 kg - comfort 1.8 kPa
3 Support: 12 cm thick. Recycled PU foam - density 30 kg - comfort 4.2 kPa

4 Cover
Ticking: 98% PES 2% elastane stretch knit fabric - 620 g/m² - recycled padding yarn + recycled top yarn (total approx. 75% recycled PES) - hydrophilic treatment
100% PES 3D mesh underside - 770 g/m² - 8 mm thick
YKK zipper injected around the entire mattress perimeter (removable top cover)

Optional Premium mattress for owner cabin (3 cabins layout)
User benefits

Comfort

Good balance between support and flexibility: the foam base layer regulates body temperature, while the memory foam middle layer relieves pressure points,
The ticking includes elastane, is made of ringspun twisted PE fibers and offers a more natural, soft feel, while providing strength and breathable comfort for superior sleep quality.

Ventilation

The 3D textile's three-dimensional structure improves mattress ventilation and allows optimal air circulation, limiting the proliferation of dust mites, mold and bacteria,
The hydrophilic treatment of the ticking provides a long-lasting sensation of freshness, helping to evacuate moisture for a drier, more comfortable sleep.

Care

thanks to its two-part removable cover, it's easy to wash or replace just the top part (machine washable at 60°)
Health safety:
materials (foams, ticking, 3D textile) certified to OEKO-TEX® Standard 100, guaranteeing the absence of substances harmful to health and safe comfort.

Optional 28 000BTU Air conditioning
Same location for all layouts
Not compatible with heating system

1 Air conditioning unit 8 000 BTU

2 Air conditioning unit 8 000 BTU

3 Air conditioning unit 12 000 BTU

Thermostat

Air conditioning outlet

Optional Air heating system

CONNECT YOUR BOAT FREE YOUR MIND

SEANAPPS: connected boat as standard

"SEANAPPS" smart technology:

For monitoring the boat's status and receiving alerts as well as maintenance advice via the associated mobile application.

The type of information collected varies according to the boat's configuration: safety indicators (GPS position, battery status, bilge level, engine condition), navigation data (distance covered, speeds, depth), and comfort information (tank level, cabin temperature and humidity).

Many possible applications dedicated to dealers and an opportunity to develop a new approach to customer relations

Focus on Iro-Deck

Focus Iro-Deck: Glued-laminated Iroko deck cladding

Focus Iro-Deck: Glued-laminated Iroko deck cladding

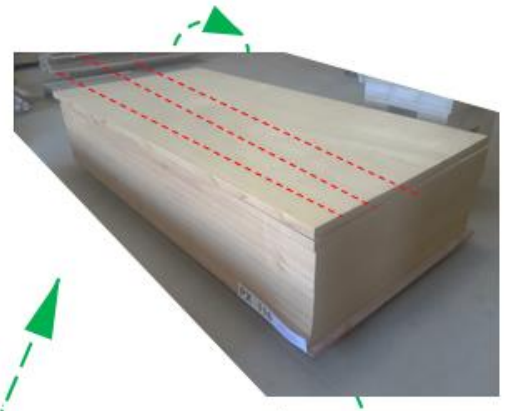

Unrolling

15/10

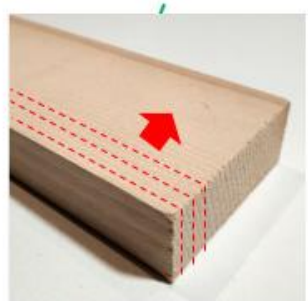

Thin sheets of Iroko are glued together (as for Alpi)

CP Iroko

The resulting block is then cut along its width to obtain planks.

"Avivé"

The result of this process is that the planks are stable in colour. The wood does not rot, the boards are splinter-free and will not split.

Lame

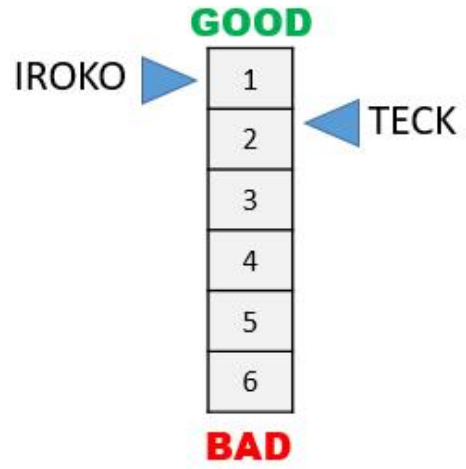

FSC

Focus Iro-Deck: Glued-laminated Iroko deck cladding

Shock resistance

Non-slip surface

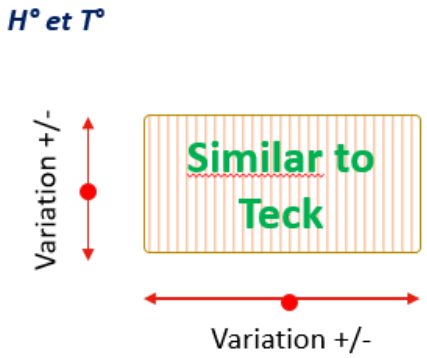

Focus Iro-Deck: Glued-laminated Iroko deck cladding

Stain resistance better than teak
